Education

Matric   Mar 2020 - Jun 2023
Tree of Life, Karachi

I'm currently working on Frontend Development having experience in building Web applications with JavaScript / TypeScript / ReactJs / NodeJs and some other cool libraries and frameworks. I'm currently learning web3 technologies such as Solidity, EtherJs, and web3

Profile

I usually create websites with front-end and back-end as well. I have also worked with different libraries like **firebase**, **material** UI, **Tailwind CSS**, **socket.io, and PeerJs**. By using these libraries, I made some exciting projects:

- React Shoe Store https://ndure.netlify.app/
- Google Meet Clone https://google-meet-app.herokuapp.com/
- Realtime COVID Tracker https://beingguru.netlify.app/
- Expense Tracker https://balancemanager.netlify.app/
